## THERE WERE MANY STILL.

In The Smith Country in The Land of Stokes,

## THEY SHOOT STRAIGHT THERE.

The First Bloodless Raid Ever Made To That Country Took Place The Other Night.

Captain T. H. Vanderford of the revenue service is back in the city again and alive as usual. Not every man who has gone where Capt. Vanderford did has been equally fortunate.

On Monday night Capt. Vanderford left here and going up Stokesward was joined by Col. Chapman with a force of ten men, making eleven in all. This was just before day and before the birds were up the posse, booted and spurred, rode out into what is known as the "Smith country" in Stokes county. The Smith country ranks along with Shelton Laurel in Madison as being the most fertile moonshine territory in the State. There are many stills there. They mock the ol-factories of the raider on every breeze. And there is menace and danger in their breath.

The posse was acting on a straight tip and found the stills—flocks of them—but there were other warm tips out and the wary moonshiner had his share. Nestling cozily along the streams in a radius of two miles the raiders found eleven manufactories of the juice that biteth. But only three of them were in operation. The others were silent and cold. The owners had been warned. There were stills in plenty, but very few Smiths, though it was Smiths' country. Only six men were seen on the entire raid—lank mountaineers slouching here and there with eyes that were none too friendly. Not a man was captured on the raid and no resistance was offered to the raiders.

Brave men and true have ridden into the Smith country in days past and have not ridden back. They died with their boots on. No company of raiders ever ventured into that country before and returned without having heard the sharp bark of the long mountain rifle that shoots mighty straight. There was Murrow, a brave man, who rode into the country and gave battle royal to the 'shiners but his horse fell on him and he died. Lewis ventured there and was shot and Jim Smith had the same fortune. Before these there were many who went there and did not come back. Smiths' country has a bloody history.

Capt. Vanderford says that despite their number the stills up there make less illicit whiskey in a year than some registered distilleries do in this State in a month. That is food for thought.

### At The Academy of Music.

The following is from the Durham Sun of the 21st inst.

Frank M. Dawson, Manager Opera House Lynchburg, Jan. 17, '98.

Mr. J. T. Mallory, Manager Opera House, Durham, N. C.

Dear Sir:—I have just closed a week's engagement with the Lillian Tucker Co. You can assure your patrons that it is one of the very best repertoire companies that has visited the south. It is the best I have played in years. Little Ethel Dyffrn, of the Dyffryn Trio, is the brightest little tot of a singer I ever saw, and she will please your lady patrons wonderfully. You can tell your people anything you like that is good about the show. Very truly,  
Frank M. Dawson.

Miss Tucker and her company open at the Academy of Music on Monday Jan. 31st for five nights and Saturday matinee.

### ON HIS WAY TO KLONDYKE.

A North Carolinian Writes From Tacoma, Washington.

A letter was received here yesterday from Mr. Isaac M. Tull, the young man from Kinston who was here Christmas on his way to the Klondyke. He is now at Tacoma, Washington, and writes:

"I shall get ready to leave here on or about February 15th. People are starting earlier than was expected. About 1,050 went up last week. It will be better for those who now come to bring a good pair of dogs with them. All the best dogs have been bought up here. It doesn't seem to make much difference what kind they are; shaggy setters, I think, will answer every purpose. Tacoma is the best place to secure an outfit and start from from."—News-Observer.

Mr. Tull, it will be remembered, spent some time here, leaving for the Klondyke as stated at the time.

## JUDGE HAMILTON G. EWART

Nomination Sent to the Senate This Afternoon

## ALL OPPOSITION IS WITHDRAWN

Appointment Will be Favorably Reported by Judiciary Committee and Ewart Will be Confirmed

By Wire to THE TELEGRAM.

Washington, Jan. 27.—The President this afternoon sent to the senate the nomination of Hamilton Glover Ewart, of North Carolina, to be United States district judge for the Western District of North Carolina.

All opposition to the appointment of Ewart has been withdrawn and there is no doubt that it will be favorably reported upon by the judiciary committee of the senate and Judge Ewart will be promptly confirmed.

Judge Ewart is about 45 years old. He was born in South Carolina and removed when a child with his widowed mother to Hendersonville. His mother married there a Mr. Rippley. Shortly after the war he was registered in bankruptcy, which place he filled ably. For a number of years he practiced law at Hendersonville. He ran against Thos. D. Johnson for Congress some ten years ago and was elected from a district normally democratic, by 900 majority. He served only one term. He is one of the finest orators of his party in this State, is of irreproachable personal character and is popular among his acquaintances. He is said to have a good legal mind, though he has been a politician rather than a lawyer. He is now judge of the Western Criminal Court Circuit to which place he was chosen in 1896.

### UNCONSCIOUS FIFTEEN MONTHS.

Case of Suspended Animation Made Known by a Physician.

According to evidence introduced before Recorder Goff yesterday Wm. Scott, former employee in the trunk shop under the Astor House, has been unconscious for fifteen months as the result of an assault.

Scott was injured on October 20th, 1896. His alleged assailants were soon afterward indicted, but it was necessary to determine the extent of Scott's injuries before they could be brought to trial.

Yesterday an affidavit was handed up to the Recorder made by Dr. W. L. Ricard of Brooklyn, who has studied Scott's case carefully.

"So far as I have been able to ascertain," the physician said in his affidavit, "this is the strangest case of suspended animation on record. I do not believe that the injured man will ever recover consciousness; neither do I see that it is possible for him to live much longer. Still, Scott has surprised every one by living as long as he has."

The men who are accused of assaulting Scott were employees of the department of public works named Clark and Schlesinger.—N. Y. Sun.

### Mr. Sherwood in Pittsburgh.

Mr. Wm. H. Sherwood played with the Pittsburgh Orchestra a short time ago in Carnegie Hall, the Beethoven Fifth Concerto, and had an enormous success. He was recalled twelve or thirteen times. He has accepted a return engagement there which will have been completed before this article reaches the reader, the concerto being Saint-Saens in G minor. It is very gratifying to note this success of Mr. Sherwood's and especially that he has had an opportunity again of playing the great Beethoven Concerto, in which he made such a distinguished success in Berlin more than twenty years ago.—Chicago Music.

### Long Runs.

Long runs have become common in New York but that of "Wang," which goes out for its third season next month, still leads in an operative way. It was played 250 times at the Broadway Theatre. Proportionally successful was it in other cities, it having been given in Chicago 60, in Philadelphia 50, and in Boston 40 times. Tickets on sale at Gardner's drug store.

### Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by C. E. Holton.

### EVICTING THE STRIKERS.

A New Chapter in the New England Milling Troubles.

By Wire to THE TELEGRAM.

New Bedford, Mass., Jan. 27.—Seven more families of strikers were evicted this morning and were given shelter by some of the other weavers. The possibility of a general strike is being again discussed. The argument is being made that all the mill owners have agreed to share in the losses of the New Bedford corporations, and that the only way to bring them to terms is to have the weavers at all the mills quit in a body.

### Relief for the Klondyke.

By Wire to THE TELEGRAM.

Portland, Ore., Jan. 27.—General Merriam, commanding the department of the Columbia, today chartered a steamboat to convey supplies to Alaska and a relief expedition from Vancouver barracks to this city. From here they will be shipped to Dyea by the steamer Gerge W. Elder on February 1st.

### Will Attend Banquet.

By Wire to THE TELEGRAM.

Washington, D. C. Jan. 27.—President and Mrs. McKinley, Mabel, Secretary and Mrs. Gage, Senator and Mrs. Frye and Private Secretary Porter, left for New York this morning where the President will attend the annual banquet of the manufacturers association this evening.

### Settling The Forgery.

By Cable to THE TELEGRAM.

London, Jan. 27.—It is now reported that the friends of Lady Sykes have settled the alleged forgeries with money lender Jay who refuses to either confirm or deny the report.

### BUNCOMBE REPUDIATES.

A Decision By Judge Norwood Yesterday.

A special dispatch to the Raleigh Post says:

Superior Court Judge Norwood, at Waynesville today decided that the Buncombe bonds of the Asheville and Spartanburg Railroad are null and void.

A permanent injunction is issued against the County Treasurer. Defendants gave notice of appeal to the Supreme Court.

Judge Norwood based his decision the grounds that as the construction of the Spartanburg and Asheville Railroad was not begun until after the election authorizing the subscription and the issuing of the bonds was held, and as the county had no pecuniary interest in the road at the date of making the subscription and issuing these bonds, there was no legal authority for the holding of such election; that the making of the subscription and the issuing of the bonds with question of the regularity of the passage of the act, did not enter into the case.

The only act concerning the passage of which any question was made was the act of 1877, attempting to ratify the county's subscription. It appeared that this act was not passed in the manner required by the constitution as construed by the plaintiff's attorneys.

### SKUNKS IN THE CITY HALL.

Public Municipal Business Demoralized for a Time.

Cleveland, O., Jan. 25.—Officials and others having business in the Cleveland City Hall were practically forced to abandon their work today owing to the fact that fully twenty skunks had taken possession of the building.

A day or two ago a party of boys engaged in a skunk hunt on the eastern outskirts of his city. They caught twenty-seven and started downtown with them today, the skunks being in boxes. When opposite the City Hall the boxes fell and broke.

The skunks, thus liberated, scampered in all directions. Nearly all of them found refuge in the basement of the City Hall, which they entered by way of the street grating. The result was an interference greatly with the city's business.

Janitor Clarence Brown, of the City Hall chased skunks around the basement all day. Brown had a club and wore a rubber coat. He killed two. Three were killed at the Central Armory, and another was killed in P. C. Smith's barber shop, near the City Hall.

## HAWAII BEING HELD UP

## BANQUETING OFFICERS AT HAVANA

Premier Sagasta Informs the Queen that a Dispatch from Washington is Perfectly Satisfactory.

By Wire to THE TELEGRAM.

Washington, Jan. 27.—The vote on the Hawaiian annexation treaty has been held up until the friends of Cuba see what the President intends to do. Certain senators insist that if the treaty goes through there will be no way of obtaining concessions from the White House for the Cubans.

### SPAIN IS GRATIFIED.

Madrid, Jan. 27.—Admiral Bermeseo, minister of marine, has authorized the officers of the Spanish squadron at Havana, to attend a banquet to be given to the naval officers at the Cuban capital by United States Consul-General Lee. Premier Sagasta has communicated to the Queen Regent a dispatch received from Washington. He said the dispatch was of a satisfactory character.

### More Gold Seekers.

If the Monetary convention is going to save the country why don't it say so?

Mr. Malster and Mr. Kurtz will now proceed to clasp hands across the late unpleasantness.

It is probable that since Mr. McKenna has taken his seat Judge Shiras is much less lonely.

It is gratifying to learn that the Maine stopped in the harbor of Havana instead of disembarking.

Mr. Dingley in these days of New England milling troubles may be characterized as an explanation point.

The United States should, by all means, recognize the belligerent rights of Messrs. Bailey and Reed, Morgan and Cleveland.

Pictures of President Dole show that his presence in this country is a hirsute challenge of the haughtiest nature to Mr. Peffer, of Kansas.

Uncle Sam will doubtless do his best to wear a look of pleased unconcern while the Spanish warships rub up against his legs and purr.

Mr. Gage has once more epitomized what he does not know about the "currency question" in seventeen closely printed newspaper columns.

If some enterprising journal would persuade the "Cuban situation" to sit for a life-size portrait it would score a scoop of Hearst-like magnitude.

The indications are at present that the Spanish soldiers will thrash the insurgents and then the Havana mob will thrash the soldiers and the United States will end by thrashing the whole show.

The French Chamber of Deputies has adopted a medal commemorative of the war of 1870, in spite of the objections of General Billot, the Minister for War.—Exchange.

This is a downright slight to the bloody conflict of 1898.

We print elsewhere an article from the Newberne Journal which is worth reading, because it is true, and more especially because it proves what the Telegram has often asserted: You cannot stand by home industries without other people finding it out, and people like to do business in towns where home industries are supported and built up. Greensboro is acquiring a reputation for city pride and should cultivate it sedulously. The key to wealth and numbers as a town is simply this: Stand manfully by the enterprises you have. Other enterprises will not be slow to follow.

No attempt should be made to interfere with the natural advantages which one section of the country may have over another, but advantages gained through the degradation of labor cannot long survive.—Nelson A. Dingley.

No, by all means refrain from pulling up the cotton fields of Georgia by

the roots and planting them in Massachusetts. Let it rain if it wants to. Don't stop the expansion of steam or the down hill tendency of water by a clause in a tariff bill. Let the sun shine down south. Who says the Honorable Nelson Asmus Dingley is not a statesman and a generous galoot?

A commission may go to the West Indies to investigate the practicability of establishing a coaling station at Navassa or Swamm Island—Philadelphia Record.

Why, certainly. Let one also be sent to Robinson Crusoe's island to investigate and report upon the condition of the colony established by that self-sufficient hero. There are many gentlemen of large leisure and elegant appetites who would, for a consideration, undertake to furnish estimates on Zanzibar as a basis of operations for a soda fountain or measure the capacity of Tierra del Fuego for cold storage purposes. Don't let a genius for reports and a hankering for pie run to waste. Put them in commission and let them save a big hunk of the country.

We have no word of defence to utter for the yellow journals. They are scavengers at best. They deserve all and more than all that is being said about them. But you cannot legislate decency into them. The only remedy is a revolt of public sentiment and the revolt is coming. Like all illegitimate courses the journals are gradually growing worse. They are approaching nearer and nearer to the Police Gazette standard. The World and the Journal will break each other's necks in the race to surpass in nastiness. The public will tire of them if left to itself. To attempt to legislate against them is merely to advertise them and give them opportunity to pose as martyrs. Besides, the craze for legislation is worse and more dangerous than the yellow journals. The men behind the attempted legislation in New York are probably actuated by motives of malice or revenge. The yellow journals will point that out and strengthen themselves with the public.

There is nothing startling in the report that Mr. Hanna has been assigned a room in the White House. When he leased it to the Major he had a right to reserve one room if he chose to do so.

If Mr. Pritchard would hawk his pre-election promises into court and get a judicial decision it would save him a lot of worry in the way of explanation.

Judge Norwood has decided that Buncombe need not pay its debts. It only remains to extend this privilege to private citizens.

### HANNA FAMILY TROUBLES.

Daniel and His Wife Have Agreed Formally to Separate.

Cleveland, O., Jan. 25.—Mr. and Mrs. D. R. Hanna have separated. Mr. Hanna is the son of Senator Hanna, and is virtually at the head of his father's immense business interests. His young wife still lives at the Dan Hanna residence, 1650 Euclid avenue. With Mrs. Hanna are their two children.

Daniel Hanna, in Cleveland, is almost as well known as his father. In society he is a recognized factor. He is a prominent member of the Union Club, the Gentlemen's Driving Club, and other social organizations. He is one of the best amateur drivers in the city. By the terms of the separation agreement Mrs. Hanna retains the home, horses, carriages, and everything connected with the household, and gets an annual income of \$18,000. The formal separation was postponed until the present on account of Senator Hanna's political aspirations.

### Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, constipation, dizziness yield to Electric Bitters. 50c. and \$1.00 per bottle at C. E. Holton's drug store.

### Are You "Run Down?"

Until February, 1902, I was a physical wreck and had been for over twenty years. No one can ever know what I suffered from rheumatism and neuritis in different parts of my body, but principally in my head. I suffered so much with pains in my back that often I would have to play with bottles of hot water to my back to give me what little relief it would. I suffered with indigestion for years, which gave me often such choking spells that the doctor would have to be summoned in haste. I could not eat a mouthful of food or solid food of any kind, and the exertion of gas from my stomach was distressing. My system was completely run down. I had no strength and was distressingly nervous. Sometimes I would be unconscious from these nervous spells and would have to have hot baths applied for relief. When I had been in this condition for over twenty years, Mrs. Joe Person visited our town in February, 1902, and persuaded me to try a half-dozen bottles of her Remedy, as she told me she had never known it to fail to restore a broken down system. I knew I would have to try something and thought it might as well be her Remedy as anything but I had no faith in anything but me. I bought a half-dozen bottles and when by the time I took the 8th bottle I WAS WELL. Indigestion was perfectly cured and I can now eat anything I want and it agrees with me. It cured me entirely of neuritis and I have never had it since. It cured me of hemorrhoids from which I suffered since rheumatism, backache, headache, nervousness all cured. When I see any one suffering from anything ask them why don't they take the Remedy that half a dozen bottles would cure them. I would not take hundreds of dollars for what it did for me. It restored me to health and now I enjoy life.

## STANDING BY HOME INSTITUTIONS

What the Newbern Journal Says of Greensboro.

There is a good deal of significance to those who are familiar with insurance matters in Greensboro, N. C. In the announcement of a few days ago, that another home fire insurance company has been organized in that city.

The Southern Stock Mutual Company is a home fire insurance company, which was organized in Greensboro three years ago.

The stock mutual insurance plan is one by which every policy holder receives not merely the ordinary protection against fire through his policy, but receives a pro rata dividend from the profits of the company's business.

For months past the Southern Stock Mutual has been at war with the South-eastern Tariff Association.

Whatever the merits of the controversy may be, the people of Greensboro, instead of giving a half support to their home company, have entered into the fight with their full force, giving their home company all the business they could, until the other day when the Southern Stock Mutual found it must cease to take further insurance risks, as its business had increased to the limit prescribed by its charter.

And to further show their fidelity and interest to home institutions, the people of Greensboro quickly organized another home fire insurance company, the Underwriters' Mutual, with a capital stock of \$80,000, one-half of this amount being at once paid in cash.

If the people of Greensboro prove as courageous in their support of every local enterprise, as they have in the backing given the insurance companies, the future of their city is not problematical, for such feeling as shown in the case of the home insurance company, which was threatened from without by a powerful association, means that Greensboro is a unit on home institutions, and their success is therefore assured.

And it is this standing firmly by home institutions which makes cities prosperous and its citizens successful in what they undertake.

Greene street could be much improved by taking out the pump and filling up the well in front of the leaf tobacco house of J. H. Whitt & Co., and grading the street northward.

Hard winter makes a good fire a necessity, and Cunningham Bros. say you can't have a good fire without good fuel, and we take it that this proposition is eminently correct. See new ad.

In excavating for the drain pipe today on Davie street an old bridge was found about three feet under ground. Dr. Benbow says he can remember when this old bridge served as cross-way over a ditch there.

R. L. Woodard, the Southside hardware man, has moved his place of business from the west side of South Elm street to the east side next door to Tucker & Erwin, where he will be glad to see his friends and customers.

Citizens are complaining that the electric lights are put out too soon in the morning. One gentleman, whose business calls him out very early, says the lights are often put out while he is going to his place of business, while it is yet dark, very dark, and he is compelled to flounder through the mud.

The work of putting 24-inch surface water pipes is progressing nicely. The force of hands are at the junction of Davie and East Washington. The pipes will run along Washington a hundred or more feet and thence across lots in the rear of the McAdoo, between the Odell Hardware Company's buildings, out to the depot.

There is much dissatisfaction in regard to the placing of electric lights. Three of the churches are without lights and the congregations claim

this should be remedied. The truth of the business is there are not enough lights to go round. There are long stretches of street that are perfectly dark. More lights will have to be put in this year.

Prof. Brockmann left at noon for Salem to attend the annual concert at that institution. Mr. Woodruff will lead the orchestra tonight in his absence. Prof. Brockmann says that he sold 75 tickets to the Sherwood concert in three hours canvass yesterday. Any one wishing to arrange for seats in his absence can leave their orders at the Music school and they will be attended to on Prof. Brockmann's return.

#### THE PEST COMMISSION.

Now at Work Hunting for the San Jose Scale.

Mr. J. Van Lindley, member of the Pest Commission, and Prof. T. L. Brown, of the State Normal and Industrial College, who is a special agent of the commission, and Mr. Jas. Baxter, an employee of Mr. Lindley, are in the city examining trees and shrubbery with a view to exterminating the San Jose scale pest.

This destroyer was found on Gaston and Edgeworth streets, and on Judge Dick's place, and at the A. & M. College the oyster shell scale was found. The pest commission notifies parties where the scale is found to destroy the trees or shrubbery infected, and it is highly important that it be done.

Unless the instructions of the commission are followed, they have the power to destroy the infected trees and make the owners pay for the work. This pest increases very rapidly, Mr. Lindley tells us, only two or three increasing into the millions in one season.

#### SPLENDID CONCERTS.

Veteran Corps Band Proved Themselves Worthy Musicians.

The concerts given by the Veteran Corps Band of Baltimore, at the Academy of Music yesterday afternoon and evening, for the benefit of the confederate Museum, were artistic and financial successes.

The Band, as a whole, is one of the finest ever heard in this city, and the music-loving people who failed to attend the concerts missed a splendid treat.

Little Miss Daisy Ogden, in cornet solos made a great hit, and her performance was really first-class. Prof. Fred Lax (late soloist in Gilmore's Band for ten years) played his flagolet solo and "brought down the house." Prof. Lax is known as the finest flagolet soloist in this country. Prof. G. Noweck's baritone solo, "Rocked in the Cradle of the Deep," was simply grand.—The Richmond Times, Dec. 12th, 1897.

At the Academy of Music Friday night, Feb. 4th.

#### An Object Lesson.

If any one would like to see an object lesson in favor of stone covered roads, they should go out and see the work being done between the two bridges on Buffalo near the pumping station of the water works. During the bad weather heretofore this place has been almost impassable. Wagons would mire up nearly to the hub, now there is a solid stone covered road twenty feet wide. Over this PART of the road teams can pull as much in the worst winter weather as in the dry weather of summer.

#### An Uncertain January.

Oh, gentle weather man, be fair, And serve a noble cause; Shall we put on our woolen wear Or travel out in gauze?

Wen forth we fare for pleasure's fling The playthings of the fates, Shall we our tennis rackets bring Or will we need our skates?

Will skies with torrid sunshine sizz, Or be o'ercast with gloom? Oh, tell us; will the blizzard blizz, Or will the violets bloom?

—Washington Star.

#### An Eloquent Speaker.

Dr. A. J. Barton, of Richmond, Va., assistant secretary of the Foreign Mission Board of the Southern Baptist Convention, will speak on Foreign Missions at the W. Washington Street Baptist church Friday night at 7:30.

Dr. Huffham says Dr. Barton is the most able representative the Board has ever sent to North Carolina, and all who hear him tomorrow night will be fortunate indeed.
